

NOZZLE MEASUREMENT GUIDE

**WOLVERINE
AIRSOFT**

Measure the length the stock air nozzle extends from the front of the gearbox when all the way forward. This is dimension "A".

Measure the distance from the SMP cylinder sits back from the front of the gearbox. This is dimension "B".

$$A + B = C$$

“C” is the distance the nozzle needs to extend from the front of the cylinder. Compare this to values in the table below. You will want to select a nozzle 0-.5mm longer than the stock air nozzle. These values apply for SMP, HYDRA, and Inferno nozzles.

Nozzle	Dimension “C” (mm)
M4	19.25
AK	19.65
M249	18.75
CA LMG	17.75
KA FAL	21.5
G36	24.5
CA Scar L	25.75
PTS Masada	27.5
VFC XCR	29
A&K Masada	33.32
GG SR25	35.05
VFC Scar H	36
KA SIG 556	47.4
